Kadircan Arıcı
Software Developer

As a junior developer with 6 months of experience in the field, I have a strong foundation in the .NET with MVC, Entity Freamwork and LINQ query. I have worked on small-scale projects using this technology. I am highly motivated to learn and grow as a developer, and have a strong ability to problem-solve and work well in a team. I am eager to take on new challenges and contribute to the success of the company as a valuable member of the development team.
